

Donald Trump's Policies and The U.S. Department of Health and Human Services Aim to **Cut** Head Start

Cuts to Head Start could force the **closure** of centers and services in Mississippi's Second Congressional District. This would put early childhood programs at serious **risk**.

I'm proud to say I went through Head Start, and I truly believe it helps kids grow, learn, and get a strong start in school and in life.

Cuts to Head Start Services could mean:

- **Loss of Access to Early Education**
- **Fewer Head Start and Early Head Start Programs**
- **No Reliable Child Care**
- **Less Support for School Readiness Skills like Literacy, Math, and Social Development**
