

# Donald Trump's Policies and DOGE Aim to **Eliminate the U.S. Department of Education**

Donald Trump's policies threaten to strip funding from K-12 schools serving low-income students unless they get rid of practices related to diversity, equity, and inclusion.

Congressman Bennie G. Thompson cosigned a letter demanding that conservatives in Washington, D.C., stop this abuse of power and protect the Department of Education's duty to serve all students. **Education is a right, not a privilege.**

## K-12 Schools Could Lose Money to Help Fund:

Resources for Students  
with Disabilities

Teachers

Books and School  
Technology
