

The Big “~~Beautiful~~” Ugly Bill

House Republicans passed a bill that would **cut** health care for **43,000** people and food aid for **54,000** families in Mississippi’s Second District, according to the Congressional Budget Office and the U.S. Department of Agriculture.

I am the only Representative in the Mississippi Delegation here in Washington that voted no on this harmful bill.

If this bill become law, you could suffer from:

- **More Medical Bills**
- **Loss of Health Insurance Coverage**
- **Less Access to Doctors and Hospitals**
- **Increased Transportation Problems**
- **Reduced SNAP Benefits**
