

# The Trump Administration's Policies Would **Eliminate** FEMA

The Trump Administration said the Federal Emergency Management Agency (FEMA) should be **eliminated** because it has failed the American people.

I disagree. FEMA provides federal assistance to help families, businesses, and communities respond to and recover from disasters.

Cuts to FEMA could mean:

- Limited Federal Assistance
- More Personal Financial Hardship
- Delayed Emergency Response
- Slower Recovery Times for Disasters
